Sayed Ahmed Husain

SOLUTIONS ENGINEER

+973-3311-5351 - +966-59-0305-575 | sayedahmed97.sad@gmail.com | Hamad Town, Bahrain | LinkedIn Page | Website | Portfolio |

SUMMARY

Solutions Engineer blending an electrical engineering background, software development expertise, and proven technical sales experience. Excels at translating complex client requirements into compliant, commercially viable solutions. With a track record of securing $1M+ in contracts and optimizing project lifecycles, seamlessly bridges the gap between stakeholders, engineering teams, and delivery operations to ensure successful project outcomes.

SKILLS

Requirements Discovery | Technical Sales & Bidding | Stakeholder Management | Solution Design | Project Coordination | QA/QC | Regulatory Compliance | CRM |

LANGUAGES

Arabic: Native
English: Full Professional Proficiency

WORK EXPERIENCE

Business Development & PR | Lichfield Fire and Safety Equipment FZE (LIFECO) May 2024 - Feb 2026

- Managed technical vendor pre-qualifications and Bahrain Tender Board bids, contributing directly to over $1M in generated revenue.
- Built operational relationships with regulatory bodies, maintaining 100% compliance and accelerating execution pipelines by 20%.

Electrical Project Engineer | Super Fire and Safety Services W.L.L Oct 2022 - Oct 2023

- Engineered compliant life-safety systems for industrial clients like ALBA and Bahrain Steel, achieving zero safety failures during final technical inspections.
- Directed a cross-functional team of 15+ technicians, reducing overall testing and commissioning time by 15%.

Retail Sales Specialist | Channels by STC Apr 2022 - Sep 2022

- Served as a frontline technical advisor for enterprise clients, consistently meeting sales quotas through needs-based recommendations.
- Resolved high-volume technical inquiries through CRM, supporting top-tier customer satisfaction and retention.

Acting Branch Manager & Retail Operations Specialist | Zain Bahrain Feb 2019 - Mar 2022

- Led branch operations and technical support escalations, reducing service downtime and improving customer retention by 30%.
- Exceeded corporate revenue targets by 20% through targeted cross-selling and operational excellence.

Co-Founder & Technical Member | Evoha (Startup) Sep 2025 - Present

- IoT & AI Integration: Spearheaded the technical architecture of an energy optimization platform, bridging hardware controllers (IoT) with predictive AI algorithms to analyze and reduce electrical consumption for B2B/B2C users.
- Cross-Disciplinary Engineering: Seamlessly integrated hardware sensor telemetry via Wi-Fi protocols into a centralized software dashboard, proving the commercial viability of smart grid and smart home technologies.

SELECTED TECHNICAL PROJECTS

Smart Streetlights - IoT Solution & Energy Optimization 2019

- Solution Design & IoT Integration: Architected an intelligent street lighting solution utilizing Arduino microcontrollers, Light Dependent Resistors (LDR), and motion sensors to dynamically adjust illumination based on real-time traffic and ambient light conditions.
- Energy Optimization & ROI: Engineered a hardware-to-software bridge replacing inefficient traditional lighting with automated LED systems, successfully simulating a 40% to 50% reduction in overall energy consumption and maintenance costs.
- Commercial Viability: Translated environmental sustainability requirements into a functional commercial prototype, demonstrating scalable, cost-effective infrastructure optimization for urban environments.

EDUCATION

Professional Full-Stack Developer Program | Reboot Coding Institute — Sep 2026
Bachelor of Science in Electrical Engineering | University of Bahrain — Jun 2022

PROFESSIONAL DEVELOPMENT

B2B Sales Fundamentals & Emotional Intelligence | Golden Trust Institute — Oct 2019
CRPEP License (Electrical) | Council for Regulating Engineering Professions, Bahrain — Dec 2022
Arab International Cybersecurity Conference & Exhibition - AICS 2025) | Delegate — Oct 2025
StartUp Bahrain Pitch night (Evoha) | 2nd Place Winner — May 2026
StartUp Bahrain Weekend | Team Participation — Sep 2025
StartUp Bahrain Weekend | Team Participation (Top 9 idea) — May 2024
